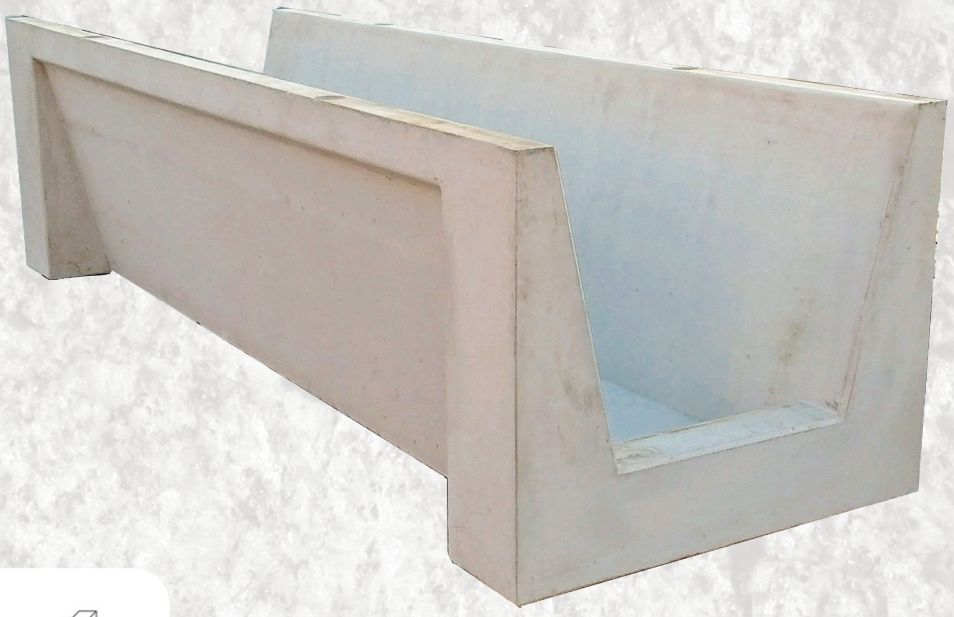
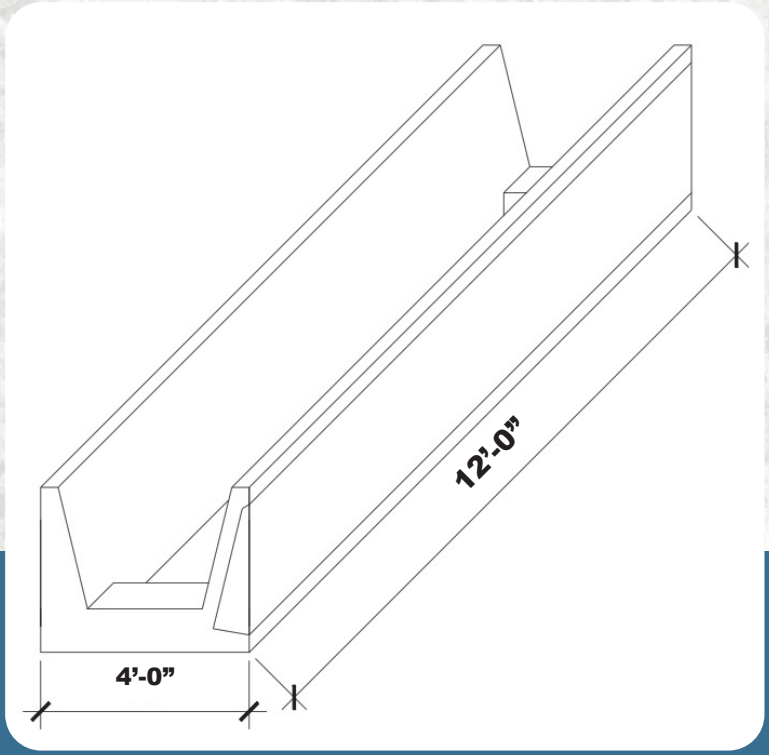
Keystone Concrete's Cattle Footbath

Keystone Concrete's Precast Cattle Foot Baths keep your cattle clean and your labor costs low. They provide a quick and easy way to disinfect your steers, dairy cows, or even calves while requiring no moving mechanical parts.

Our engineered precast concrete design ensures a long-lasting, durable, and sturdy foot bath, while still allowing for adjustability.

Removable Plug for Cleanout





5000 PSI CONCRETE
Weight: 6,000 lbs.
Rebar Grade: 60,000
